Dear Reader,

My name is Karla Gaudet, and I'm currently on the exciting journey of completing She Codes Australia's 6-month Plus Program due to wrap up in April 2024 and have completed a Certificate IV in IT.
It's been quite the adventure so far!
During this immersive bootcamp, I've delved into various programming languages and frameworks, from HTML/CSS to Python, React JS, and Django.
It's been a whirlwind of learning, and I've truly enjoyed every moment of it.

What truly sets me apart, though, is my background as a former small business owner.
Running my own business has instilled in me invaluable qualities like effective communication, adaptability, and an insatiable thirst for learning.
These traits, combined with my technical skills, make me confident in my ability to make a positive impact within a team.

If there's anything more you'd like to know, feel free to reach out - I'm an open book!

KARLA GAUDET

SUMMARY

✉ karlavgaudet@gmail.com

in /karlagaudet/

○ https://github.com/ktechgau

- Github

EDUCATION

SHE CODES AUSTRALIA

Immersive Bootcamp | Sep '23 - Apr '24

Project based program covering front and backend (HTML,CSS,Django, React, REST)

SKILLS STRATEGIES INTL.

Certificate IV in IT | Feb '23 - Present

Course scope covers Network infrastructures, Network security, Systems infrastructures and SOHO networks.

EXPERIENCE/PROJECTS

CROWDFUNDING SITE (FRONTEND - REACT JS

https://github.com/ktechgau/crowdfunding_front_end

- Part 2 of the crowdfunding site, I built the front end with ReactJS
- Pulling the APIs created with Django REST
- Responsive Design
- Deployed site: https://opendoor.netlify.app/

CROWDFUNDING SITE (BACKEND - DJANGO REST

hhttps://github.com/ktechgau/crowdfunding_back_end

- Provided with some starter code, I built an API using REST framework to showcase my backend development skills.
- The project is divided into 2 parts, this being the backend development of features and functionality.
- View a live demo of the backend features https://drf-patient-pond-1056.fly.dev/projects/

DATA MANIPULATION WITH PYTHON

https://github.com/ktechgau/Weather_Project

- Processed CSV files containing weather data and convert them to meaningful text-based summaries.
- Provided with some starter code, functions were created to successfully pass the test code.

NEWS/BLOG WEBSITE WITH DJANGO

https://github.com/ktechgau/she_codes_news

- Within a stringent week and a half time frame, a dynamic website was created.
- With some starter code provided, additional features were installed for an interactive, user friendly site.

- Passionate about continuous mental growth and health
- Reading
- Exercise to stay fit and healthy
- Part of a women's hiking group
- Travelling

EXPERIENCE/PROJECTS

SMALL BUSINESS OWNER

Beauty Queens (Beauty Salon) | 2005 - 2022

From the many hats I wore as a small business owner, here are just a few things I became an expert at:

- Interpersonal and High written and Oral communication skills. I am great at developing working relationships.
- Problem Solving, Adaptability, Critical thinking, Comfort in ambiguity. Finding solutions and changing processes are skills I am very comfortable with. Problem solving was what I enjoyed most about owning a business.
- A Learning mindset. As technology and trends evolved in my years in business, learning and growing was vital to my success.
